

HOW TO PLAY QUOTA

The objective of the game is to accumulate points on each hole based on your score relative to par. In a typical Quota event, players receive:

- Bogey = 1 point
- Par = 2 points
- Birdie = 4 points
- Eagle = 6 points
- Double Eagle = 8 points

Unlike a Stableford or Modified Stableford event where players are simply accruing points, in Quota, players start with a point hurdle of 36 less their handicap. So, a 16 handicap player would start with a quota of 20. If he earned 25 points during a round, his total score would be + 5 for the day.

Score each game with gross score & the computer will score the points.

Please use a separate scorecard, if you wish to keep track of your points
